

# APPROVED GAS CARTRIDGES

The uKeg is a pressurized container that keeps the beverage within fresh and carbonated (uKeg PRO/GO) or infused (uKeg NITRO) dispensing it through an integrated tap faucet. The gas source for the uKeg is provided by a device referred to as a “Cartridge”. These Cartridges are also known as Chargers.

PerfectWerks approves the use of PerfectWerks and GrowlerWerks brand Cartridges which are tested to be of the highest food-grade quality. The uKeg is designed to work with a specific size of these Cartridges. These can be purchased directly from the PerfectWerks website or other approved retailers. If the PerfectWerks or GrowlerWerks brand is unavailable, several other Cartridge brands are known to be compatible with the uKeg. **DISCLAIMER:** PerfectWerks does not guarantee that these brands will work with the uKeg as the specifications of the Cartridges for those brands may change over time and any damage caused by a non-PerfectWerks or non-GrowlerWerks brand will void the warranty.

PerfectWerks will extend the warranty to cover use with a non-GrowlerWerks brand of CO<sub>2</sub> and N<sub>2</sub>O Cartridges provided that the Cartridge meets the following specifications:

1. Contains 8 or 16 grams of CO<sub>2</sub> or N<sub>2</sub>O, depending on Cartridge size.
2. Designated “Food Grade”
3. Uses an unthreaded connection port
4. Has a protective coating for use in damp environments
5. Is compliant with the Size Reference provided below

## 8 GRAM

(uKeg 64 PRO/GO)

CO<sub>2</sub>

## 16 GRAM

(uKeg 128 PRO/GO/NITRO)

CO<sub>2</sub>

N<sub>2</sub>O
